Product Overview

Heavy-Duty Metal Suction Lifter

This heavy-duty suction cup lifter is engineered for the safe handling and transport of smooth, non-porous materials such as glass, tile, and sheet metal. Featuring a robust metal handle and high-strength suction pads, it offers a secure and reliable grip for demanding industrial and construction tasks. The ergonomic design includes quick-release levers for efficient attachment and detachment, ensuring optimal productivity and safety on the job site.

Technical Specifications

Compatible Surfaces

- Smooth glass
- Polished tile
- Sheet metal
- Non-porous surfaces

Key Features

Corrosion Resistant • Quick-Release Levers • Ergonomic Handle • Heavy-Duty

Construction Material

Polished Metal

Pad Configuration

Dual-Cup (2 Pads)

Ideal Applications

Glass Handling, Tile Installation, Automotive Repair, Construction, Sheet Metal Moving
