

Metal Fixing and Hanging System Assortment

This system includes hose clamps, pipe clamps, strut supports, fasteners, and anchors. It also features pipe fittings, hose nipples, sanitary fixings, radiator fixings, air conditioning fixings, electrical fixings, rigging hardware and rivets.

Product Overview

Comprehensive Mounting and Hanging Solutions

This professional-grade metal fixing and hanging system assortment is designed to provide versatile support for complex installations. The set includes a wide array of galvanized steel channels, specialized pipe clamps with noise-dampening rubber inserts, and essential hardware such as anchors and threaded rods. Engineered for durability, these components ensure secure mounting for pipes, cable runs, and industrial equipment across various construction environments.

Technical Specifications

Included Components

- Support Channels
- Pipe Clamps with Rubber Inserts
- Hose Clamps
- Metal Anchors
- Fastening Screws
- Threaded Rods
- Mounting Plates

Suitable Applications

Industrial Piping • Cable Management • Equipment Mounting • Commercial Infrastructure • Residential Utility
