

Metal Frame Exhaust Fan

This electrical fan is designed for ventilation and exhaust purposes. It features a square frame with rounded corners and aerodynamically designed blades for efficient airflow.

Product Overview

High-Efficiency Ventilation Solution

This metal frame exhaust fan is engineered for reliable ventilation in both household and industrial environments. It features a robust metal construction with aerodynamically designed blades to ensure efficient airflow performance. The unit is equipped with vibration-dampening rubber grommets at the mounting points, providing stability and reduced noise during operation.

Design & Construction

Frame Material	Metal
Frame Shape	Square with rounded corners
Vibration Dampening	Yes

Application

Suitable Environments	Household, Industrial
Primary Function	Ventilation and Exhaust
