

Metal Grinding Angle Grinder

This angle grinder is designed for metal grinding applications. It features a robust motor, ergonomic design, and safety features, making it suitable for cutting, grinding, and polishing metal surfaces.

Product Overview

Professional Metal Grinding Solution

This professional-grade angle grinder is engineered specifically for demanding metal grinding, cutting, and polishing applications. It features a robust 650W motor designed to handle tough tasks while maintaining high operational efficiency. With an ergonomic build and a generous 2.8m power cord, it offers both comfort and flexibility for extended professional use.

Technical Specifications

Power Input

650 W

Power Input

No Load Speed 12000 r/min

Spindle Thread M10

Capacity & Dimensions

Wheel Diameter 100 mm

Wire Cup Brush Capacity 75 mm

Power Supply Cord Length 2.8 m
