Product Overview

Professional Metal Grinding Solution

This high-performance abrasive grinding wheel is engineered for efficient metalworking tasks, including cutting, shaping, and surface finishing. Designed for durability and safety, it features a reinforced construction that minimizes dust and noise while maintaining a sharp, consistent cutting edge. Ideal for professional metal fabricators and welders, this wheel ensures high-quality results with excellent polished brightness and no residue.

Performance Characteristics

Operational Features

- Maintains sharpness during extended use
- High flexibility for various angles
- Prevents black discoloration on metal surfaces
- Easy to paint after processing
- Reinforced construction for safety

Key Performance Benefits

Abrasive Resistant, High-Temperature Resistant, Low Noise, Low Dust, High Polished Brightness, Residue-Free

Technical Specifications

Tool Compatibility

1 Angle Grinder

Primary Tool Type

Safety Features

Reinforced Mesh Core • Secure Metal Center Ring • Shatter-Resistant Design
