

Metal Halide Lamp Ballast 35W-150W

This ballast is designed for MH lamps ranging from 35W to 150W and operates at 60Hz. It features a Type HX-HPF design, ensuring efficient and stable operation.

Product Overview

High-Performance Ballast Solution

This high-performance ballast is specifically engineered for Metal Halide (MH) lamps within the 35W to 150W range. Utilizing a Type HX-HPF (High Reactance-High Power Factor) design, it ensures stable and efficient operation, which is critical for maintaining consistent lighting performance. By providing optimal starting and running characteristics, this unit helps extend the service life of your lamps while reducing overall energy consumption.

Technical Specifications

Ballast Type

HX-HPF • High Reactance • High Power Factor

Wattage Range	35W - 150W
Input Voltage	120 V
Input Current	1.45 A
Operating Frequency	60 Hz
Model ID	YDQ35-151

Performance Metrics

Key Operating Metrics

37 W

Power Consumption

1.45 A

Rated Current
