

Metal Impulse Garden Sprinkler

This metal impulse sprinkler is designed for garden irrigation. It provides adjustable watering patterns for efficient coverage.

Product Overview

Professional Grade Impulse Sprinkler

This durable rotary impulse sprinkler is engineered for reliable garden and landscape irrigation. Constructed from high-quality zinc alloy, it offers robust performance and long-lasting durability in various outdoor conditions. With a fully adjustable spray pattern ranging from 0 to 360 degrees, it provides versatile coverage tailored to specific watering needs.

Technical Specifications

Operating Pressure

4 bar

Minimum Pressure

10 bar

Maximum Pressure

Material	Zinc Alloy
Watering Radius	8 m
Spray Angle	0-360 degrees adjustable

Features

Key Features

- Heavy-duty zinc alloy construction
- Fully adjustable rotation (0-360°)
- High pressure compatibility (up to 10 bar)
- Reliable impulse mechanism
