

Metal Machining Lathe

This precision metal lathe is designed for machining metal and other materials. It is equipped with a chuck, tailstock, and tool post for versatile machining capabilities.

CQ9325

Product Overview

Precision Metal Machining Lathe

This precision metal lathe is engineered for high-performance machining of metal and various other materials. Featuring a robust build quality, it offers variable speed control and precise adjustments essential for complex turning, facing, and threading operations. It comes fully equipped with a chuck, tailstock, and tool post, providing versatile capabilities for professional machining tasks.

Technical Specifications

Included Components

- Chuck
- Tailstock
- Tool Post

Model Number	CQ9325
Machining Capabilities	Turning, Facing, Threading

Performance Features

Speed Control

Variable Speed

Build Quality	Robust construction for industrial stability
