

Metal Shearing and Bending Machine

This cutting and fold-bend machine is designed for metal forming, specifically shearing and bending operations. It operates with a foot pedal control system for ease of use.

Overview

Industrial Metal Forming Solution

This robust metal shearing and bending machine is engineered for precision metal forming operations in industrial environments. Featuring a heavy-duty construction with a stable frame and mobile design, it offers flexibility for various workshop layouts. The system is equipped with an intuitive foot pedal control, ensuring efficient and safe operation for bending and cutting tasks.

Technical Specifications

Power Output	4 KW
Operating Voltage	380 V
Frequency	50 HZ
Rated Current	8.1 A
Machine Weight	380 KG
Model Identifier	JLD-32

Features

Control System	Foot Pedal Control, Power Switch, Indicator Lights
Mobility	Yes

Performance Metrics

Performance Overview

4 KW Power	380 KG Weight	8.1 A Current
