

Metal Sheet Cutting and Folding Machine

This heavy-duty machine is designed for metal forming applications, specifically cutting and folding. It features robust construction for stability and precision, along with a control panel for adjustments and automated operation.

Product Overview

Heavy-Duty Metal Forming Solution

This heavy-duty cutting and fold-bend machine is engineered specifically for demanding metal forming applications. Featuring a robust construction, it ensures maximum stability and precision during operation. The large worktable accommodates sizable materials, while the integrated control panel allows for precise adjustments and automated shearing and bending processes, making it an ideal choice for manufacturing and fabrication environments.

Technical Capabilities

Operational Features

- Automated operation control
- Precision adjustment panel
- Robust structural design
- Large capacity worktable

Best For

Manufacturing • Fabrication

Core Functions

Shearing, Bending, Folding, Metal Forming
