

Metal Sheet Cutting and Folding Machine

This machine is designed for cutting and folding metal sheets. It provides precision and efficiency in various metal sheet processing tasks.

Product Overview

Versatile Metal Processing Solution

This metal sheet cutting and folding machine is designed to provide precise, efficient metal fabrication capabilities. It is engineered for durability and consistent performance in industrial settings. The system integrates robust components to handle various sheet metal thicknesses and folding requirements, ensuring high-quality output for professional fabrication tasks.

Technical Specifications

V-Belt Dimensional Data

Belt Type	Top Width (mm)	Height (mm)
ZX	10	6
AX	13	9
BX	17	11
CX	22.2	13

Supported V-Belt Types

ZX, AX, BX, CX
