Overview

Industrial Metal Shearing Solution

This high-capacity metal sheet shearing machine is engineered with robust steel-fabrication construction to ensure durability in demanding industrial environments. It features an adjustable blade gap for precise cutting across thin materials and includes a spring-loaded clamp beam for secure handling. The unit comes equipped with front sheet supports and an integrated backgauge for increased operational efficiency.

Technical Specifications

Cutting Performance

2500 mm

Cutting Width

1.2 mm

Cutting Thickness

800 mm

Back Gauge Range

Model Details

- Item No: 372016
- Model: Q01-1.2x2500B
- Features: Spring-loaded material clamp beam
- Maintenance: Greasing and oiling points on bearing surfaces
- Accessories: Front sheet supports and backgauge
