

Metal Twin Bell Quartz Clock

This classic metal quartz clock features a traditional twin-bell design and a quartz movement for accurate timekeeping. The clock face includes clear numerals and luminous hands for easy readability.

Product Overview

Classic Twin Bell Design

This metal quartz clock combines a timeless, traditional twin-bell aesthetic with reliable quartz movement technology. Designed for both functionality and style, it features clear numerals and luminous hands for excellent readability in various lighting conditions. It serves as an ideal decorative and practical timepiece for bedside tables, desks, or office spaces.
