

Metal Wire Utility Cart with Swivel Casters

This metal wire trolley is designed for transporting goods. It features a deep basket with a sturdy frame, four swivel casters for easy maneuverability, and a comfortable handle for pushing or pulling.

Product Overview

Professional Utility Solution

This metal wire utility cart is engineered for efficient material transport in retail, warehouse, and commercial environments. Constructed with a deep-basket frame, it provides robust support for heavy items while ensuring ease of movement. The integrated swivel casters and ergonomic handle allow for seamless maneuvering, making it an essential tool for high-traffic operational settings.
