

# Metal Wired Dynamic Microphone

This metal wired microphone is designed for vocal and instrument applications. It features a dynamic capsule that provides clear and natural sound reproduction.

## Product Overview

### Built for Durability and Performance

The PT-717 is a robust dynamic microphone engineered for versatility in professional and entertainment settings. Featuring a resilient zinc alloy body and a heat-treated brazing metal net, it is designed to withstand the rigors of frequent use while maintaining sound integrity. With its advanced magnetic reed mute switch and interference-resistant wiring, it ensures clear, noise-free operation for live shows, hosting, and vocal performances.

## Technical Specifications

Microphone Type	Dynamic
Polar Pattern	Hyper Cardioid
Net Weight	47 g

## Audio Performance

Frequency Response	100Hz - 10KHz
Impedance	370 $\Omega$ $\pm$ 30% @ KHz
Sensitivity	-50dB $\pm$ 3dB

## Build Quality

Materials & Design	Zinc Alloy Body, Heat-Treated Metal Net, Abrasion-Resistant Paint
--------------------	---

## Features

### Key Features

- Magnetic reed noise-free mute switch
- Twin-cord sheltered wire for interference rejection
- Climate-resistant cartridge
- Balanced sound profile with thick bass and clear treble

### Recommended Applications

Live Shows • Public Hosting • KTV • Family Entertainment • Outdoor Activities
