

Metallic Air-Pressure Ventilation Fan

This air-pressure ventilation fan is constructed with durable metal. It is designed for efficient air circulation and ventilation.

Product Overview

High-Performance Air Circulation

The Metallic Air-Pressure Ventilation Fan is engineered for robust performance in demanding environments. Featuring a durable metallic construction, it ensures long-lasting reliability and efficient air exchange. This deluxe model utilizes an advanced air-pressure mechanism, making it an ideal solution for professional ventilation requirements.

Design & Construction

Construction Type

Deluxe Metallic Type • Durable Construction

Material	Metallic
----------	----------

Performance

Core Capabilities

- Efficient air circulation
- Effective air exchange
- Robust air-pressure mechanism
- Long-lasting performance

Ventilation Mechanism	Air-pressure ventilating system
-----------------------	---------------------------------

Compliance & Standards

Product Markings	VE, EE
------------------	--------
