

# Metric Hex Key Set with Ball End

This 9-piece metric hex key set features ball point ends for accessing fasteners at an angle. Constructed from durable steel, these keys are designed for long-lasting performance.

## Product Overview

### Professional Metric Hex Key Set

This 9-piece metric hex key set is engineered for durability and versatility in professional applications. Featuring a ball-end design, these keys allow for easy fastener access at angled positions, significantly improving efficiency in confined spaces. Constructed from hardened and tempered Chrome Vanadium (Cr-V) steel with a chrome-plated finish, this set ensures long-lasting performance and corrosion resistance.
