

# Mica Space Heater with Thermostat and Timer

This mica space heater provides efficient heating for small to medium-sized rooms. It features an adjustable thermostat, a 24-hour timer, overheat protection, and a turbo fan for better air circulation.

## Product Overview

### Efficient Heating Solution

The NDG-200B mica space heater is engineered for rapid and efficient heating in small to medium-sized indoor environments. Utilizing advanced mica heating technology, it provides quick warm-up times and consistent heat distribution throughout the room. With integrated safety features such as overheat protection and a tip-over switch, this unit is designed for reliable, worry-free operation.

## Performance & Control

Heating Element	Mica
Control Features	Adjustable Thermostat, Timer

## Safety & Design

### Safety Protections

Overheat Protection • Tip-over Switch

Portability	Yes
Usage Environment	Indoor

## Technical Details

Power Source	Standard Household Voltage
