

Micro Precision Electric Grinder

This electric grinder is designed for detailed and precise work. It is suitable for applications such as nail and craft carving, as well as denture and mold polishing.

Product Overview

Precision Grinding Solution

This micro precision electric grinder is engineered for intricate tasks requiring high accuracy and control. Its versatile design makes it an ideal tool for professional applications, including nail care, craft carving, and detailed polishing work. The system features variable speed control and hands-free operation options to enhance workflow efficiency.

Applications

Primary Applications

Nail Care, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing

Technical Features

Control & Operation

- Variable speed control
- Foot pedal for hands-free operation
- Compact control unit design
- Ergonomic handpiece with flexible cable

Included Components

- Main control unit
- Handpiece
- Flexible cable
- Handpiece storage stand
