

Micro Precision Electric Grinder for Crafting and Polishing

This electric grinder is designed for micro precision work. It can be used for craft carving, artificial limb polishing, and mold finishing.

Product Overview

Precision Grinding & Polishing

The Micro Precision Electric Grinder is a versatile tool engineered for delicate tasks requiring high control. It features an ergonomic, compact design that ensures comfortable handling for extended periods of use. With variable speed control, users can easily adjust rotational speed to suit specific material requirements, making it an essential tool for hobbyists and professionals alike.

Applications & Usage

Compatible Materials

- Metals
- Plastics
- Ceramics

Suitable Applications

Nail Art, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing

Technical Features

Control Features

Variable Speed Control • Compact Design • Ergonomic Grip
