

Micro Precision Electric Grinder for Crafting and Polishing

This electric grinder is designed for precision grinding and polishing applications. It features variable speed control and a foot pedal for hands-free operation.

Product Overview

Precision Grinding Solution

The Micro Precision Electric Grinder is a versatile instrument engineered for high-accuracy grinding and polishing tasks. Designed for professional use, it features variable speed control to adapt to various materials and a foot pedal for hands-free operation, enhancing efficiency. Its compact, ergonomic design ensures comfortable handling during extended use in precision crafting and laboratory environments.

Applications & Usage

Primary Applications

Nail Art, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing, Jewelry Making

Technical Features

Control Features

- Variable speed control
- Hands-free foot pedal operation
- Secure chuck handpiece

Model Identifier

JD103-H
