

Micro Precision Electric Grinder with Variable Speed

This micro precision electric grinder is designed for detailed work, including nail and wood engraving. It features variable speed control and a foot pedal for hands-free operation.

Overview

Precision Grinding Solution

This micro precision electric grinder is a versatile tool engineered for high-accuracy tasks across various industries. It features variable speed control and a foot pedal for hands-free operation, ensuring optimal precision and control during intricate work. The system is designed to support a wide range of applications, from delicate craft carving and circuit board drilling to professional mould and denture polishing.

Applications

Suitable Applications

Nail Care, Wood Engraving, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing, Precision Parts Carving, Circuit Board Drilling

Technical Features

Operation Features

- Variable speed control
- Foot pedal included for hands-free operation
- Handpiece with coiled cable connection
- Power and speed indicators

Model Identifier

JD7500
