

Mid-Size Stereo Headphones with Rotating Earcups

These mid-size headphones feature rotating earcups for comfortable, extended wear. The ear shell is made of transparent PC material and delivers strong bass with fine treble.

Overview

Immersive Audio Experience

These mid-size stereo headphones are designed to provide a blend of style and functionality for an immersive audio experience. Featuring a lightweight design and cushioned, rotating earcups, they are built for comfortable extended use whether you are listening to music, podcasts, or audiobooks. The adjustable headband ensures a secure and personalized fit, while the standard 3.5mm audio jack ensures broad compatibility with smartphones, tablets, and laptops.
