

Mini CD-R 215MB 32X Speed

Mini CD-R media provides 215MB of storage with a 23-minute recording time. It supports a write speed of 32X and comes in silver.

Product Overview

Compact Data Storage Solution

This Mini CD-R provides a reliable 215MB capacity, ideal for archiving and transferring digital information in a compact format. Designed for 32X write speeds, it offers efficient performance for data, audio, or multimedia projects. The silver surface ensures compatibility with standard CD-R drives, making it a versatile choice for professional and personal storage needs.
