

Mini Clothes Dryer with UV Sanitization

This mini clothes dryer is designed for drying underwear and small apparel. It is compact and lightweight for travel, and it features UV sanitization and a 30-minute timer with auto cut-off.

Product Overview

Compact UV Sanitization Dryer

This innovative mini clothes dryer is specifically engineered for drying underwear and small apparel items with ease. Designed for portability and space-efficiency, it utilizes a standard hairdryer connection to provide effective heat while incorporating UVC sanitization technology for added hygiene. With a built-in 30-minute timer and auto-cut-off functionality, it offers a safe and convenient drying solution for travel or small living spaces.
