

Mini Crop Reaper

This mini reaper is designed for efficient harvesting in small-scale farming operations. Its compact size allows for easy maneuverability in tight spaces, making it ideal for smaller fields and gardens.

Overview

Efficient Harvesting Solution

The 4GL-130 Mini Reaper is an agricultural machine designed for efficient harvesting, specifically engineered for small-scale farming operations. Its compact size allows for easy maneuverability in tight spaces, making it highly effective for smaller fields and gardens. With a precision cutting mechanism, this reaper minimizes crop loss while maximizing harvesting speed, ensuring reliable performance under demanding conditions.

Technical Specifications

Model Number	4GL-130
Cutting Width	1300 mm
Structure Weight	95 kg
Cutting Table Type	Standing-Typed

Performance

Matched Power

12 hp Minimum Power	18 hp Maximum Power
-------------------------------	-------------------------------

Productivity	0.33-0.53 ha/h
--------------	----------------

Operational Features

Placing Type

Sidewise • Banded Placed

Overall Dimensions

Dimension	Value
Length	844 mm
Width	1536 mm
Height	640 mm
