

Mini Electric Rotary Grinder

This is a compact and versatile mini grinder suitable for precision work. It operates at 230V~50Hz with a power consumption of 130W and delivers speeds ranging from 8000 to 32000 RPM.

Product Overview

Precision Performance

The S1J-ZX1-3.2D is a compact and versatile mini electric rotary grinder engineered for high-precision tasks. With a powerful 130W motor and an adjustable speed range of 8,000 to 32,000 RPM, it offers the control needed for intricate grinding, polishing, and cutting applications. This tool is an essential addition to any workshop requiring detailed material processing.

Technical Specifications

Key Performance Metrics

130 W

Power

32000 RPM

Max Speed

Rated Voltage	230V
Rated Frequency	50Hz
Power Consumption	130 W
Speed Range	8000 - 32000 RPM

Compliance & Origin

Country of Origin

Made in China
