

## Mini Instant Electric Water Heater

This compact electric water heater provides instant hot water for undersink or oversink installation. Its digital display allows for precise temperature control in residential applications.

### ADDITIONAL IMAGES

### Overview

#### Compact On-Demand Heating

The Mini Pro series instant electric water heater offers a modern, space-saving solution for point-of-use hot water. Featuring an LED touch interface that remains invisible when powered off, this unit blends seamlessly into any under-sink or over-sink environment. It provides precise, stepless temperature control and rapid heating, making it an efficient choice for residential and office applications where space is at a premium.

### Key Features

#### Core Functionality

- Compact and modern design
- Invisible LED touch control display
- Compatible with over and under sink installation
- Alloy bare element heating technology
- Automatic air bubble detection
- Stepless temperature adjustment (35°C - 60°C)

## Technical Performance

### Performance Metrics

**35 °C**

Min Temperature

**60 °C**

Max Temperature

**24 IP**

IP Rating

**0.8 MPa**

Max Pressure

### Model Specifications

Specification	Elex 3.5 Pro	Elex 4.5 Pro	Elex 5.5 Pro
Nominal Power	3.5kW	4.5kW	5.5kW
Nominal Current	15-16A	19-20A	23-25A
Flow Rate (t=25°C)	2.0L/min	2.6L/min	3.1L/min
Switch on Flow Rate	1.2L/min	1.5L/min	1.8L/min

## Installation & Physical

### Energy Efficiency

Class A

### Dimensions & Weight

135 x 186 x 87 mm (HxWxD) | 1.5 kg

### Certifications

CE, CB, GS, CSA
