Product Overview

Precision Utility

These mini long-nose pliers are engineered for precision tasks in electronics, jewelry making, and delicate assembly. Featuring precision-machined jaws, they provide excellent control for gripping, bending, and cutting small components. The compact design ensures easy access to tight spaces, while the ergonomic, non-slip handles are optimized for comfort during extended professional use.

Technical Specifications

Applications

- Electronics assembly
- Jewelry making
- Wire bending
- Small component manipulation

Construction Material

Durable metal alloy

Key Features

Precision-machined jaws, Corrosion resistant, Non-slip ergonomic grips, Compact design

Performance Metrics

Performance Highlights

1 High

Corrosion Resistance

1 Enhanced

Grip Ergonomics
