

Mini Pick with Fiberglass Handle

This compact mini pick features a durable fiberglass handle. It is ideal for tasks requiring precision, offering a comfortable grip and resistance to environmental factors.

Product Overview

Compact and Durable Design

This mini pick is engineered for tasks requiring high precision and controlled force. Featuring a durable head paired with a lightweight fiberglass handle, it balances strength with ease of use. The fiberglass construction provides superior resistance to environmental factors, ensuring reliability and long-lasting performance in demanding work conditions.
