

Mini Portable Rechargeable USB Desk Fan

This mini portable rechargeable desk fan provides personal cooling. Its rechargeable battery allows for cordless operation, making it suitable for home, office, or travel.

Product Overview

Compact Personal Cooling Solution

This mini portable rechargeable desktop electric fan is designed for versatile cooling in home, office, or travel environments. It features a robust 4000mAh lithium battery for cordless operation and convenient USB charging. With four adjustable speed settings, an LED display, and a quiet, powerful airflow, this fan ensures personalized comfort while maintaining a compact, stable footprint.
