

# Mini PTC Space Heater with Tip-Over Protection

This mini PTC heater provides rapid and consistent heat for personal spaces. Its compact design incorporates a ceramic heating element and tip-over switch for safety.

## ADDITIONAL IMAGES

## Product Overview

### Compact Personal Heating Solution

This Mini PTC Space Heater is an efficient and portable solution designed for personal workspaces, small offices, or personal rooms. Utilizing advanced ceramic PTC heating technology, it provides rapid, consistent, and energy-efficient warmth while maintaining a cool-touch exterior for safety. Its compact, triangular wooden-style design ensures it fits seamlessly into any environment, while built-in safety features like tip-over protection and overheat prevention offer peace of mind during operation.

## Technical Specifications

Heating Technology	Ceramic PTC (Positive Temperature Coefficient)
Design Style	Triangular wooden-style housing

## Safety Features

Integrated Safety Mechanisms	Tip-over protection, Overheat protection, Cool-touch housing
