

Mini Racing Motorcycle

This mini motorcycle features a sporty design, complete with a front fairing and tinted windscreen. The motorcycle has a metal frame, a small engine, and a kickstand, making it ideal for recreational use.

Overview

Compact Racing Design

This mini racing motorcycle is engineered for recreational use, featuring an authentic sporty aesthetic that mimics full-sized racing bikes. Built with a durable metal frame, it includes key design elements like a front fairing and a tinted windscreen for a realistic look. Its compact size and low-profile tires make it an ideal choice for enthusiasts seeking a fun, agile riding experience.
