

Mini Vacuum Pump

This high-performance vacuum pump is designed for applications requiring reliable vacuum generation. Its compact design makes it suitable for portable use and integration into smaller systems.

Product Overview

Professional Mini Vacuum Pump

This high-performance, two-stage vacuum pump is engineered for reliability in portable and integrated applications. Its compact design and durable construction ensure efficient performance for specialized tasks in HVAC, refrigeration, and laboratory settings. With optimized oil lubrication and a robust 150W motor, it delivers consistent results while maintaining portability.

Technical Specifications

Performance Highlights

51 L/min

Pumping Rate

150 micron

Ultimate Vacuum

150 W

Motor Power

Electrical Requirements

Parameter	Specification
Rated Voltage	220V~
Rated Frequency	50Hz

Physical Attributes

Physical Details

- Weight: 6.5 Kg
- Oil Capacity: 220 ml
- Stage Type: 2 Stage

Application & Features

Key Features

Compact Design • Oil Lubricated • Portable

Common Applications

HVAC, Refrigeration, Laboratory
