

Miniature Chopper Motorcycle Model

This is a miniature chopper-style motorcycle featuring a red fuel tank and fenders. It has a small displacement engine and a black frame, mimicking a classic chopper design in a significantly smaller scale.

Product Overview

Miniature Chopper Design

This miniature chopper-style motorcycle model captures the essence of classic cruiser aesthetics in a compact, scaled-down format. Featuring a distinct red fuel tank and fender set, it combines authentic styling elements like an exposed air filter and a low-slung seat. Designed with attention to detail, this model includes functional-looking components such as a rear suspension system with yellow springs and a sturdy kickstand.
