

Miniature Circuit Breaker 10/6KA

Miniature circuit breaker (MCB) designed for circuit protection in residential, commercial, and industrial applications. It is compliant with IEC/EN60898-1 standards.

Overview

High-Performance Circuit Protection

This miniature circuit breaker is engineered for reliable circuit protection in residential, commercial, and industrial electrical systems. It features a robust design with a certified breaking capacity of 10/6kA, ensuring safety and durability under demanding conditions. Compliant with international standards including IEC/EN60898-1, this unit is built to provide consistent performance in diverse electrical environments.

Technical Specifications

Breaking Capacity

10 kA

Max Breaking Capacity

6 kA

Rated Breaking Capacity

Voltage Ratings

- 240/415V
- 415V

Operating Temperature

50 °C

Compliance & Certification

Certifications

KEMA • CE • EUR
