

# Miniature Circuit Breaker 10kA Breaking Capacity

This miniature circuit breaker provides protection against overload and short-circuit conditions. It has a rated short-circuit breaking capacity of 10kA.

## ADDITIONAL IMAGES

## Product Overview

### N8BH Series Miniature Circuit Breaker

The N8BH series is a versatile miniature circuit breaker designed for robust electrical protection in residential, commercial, and industrial environments. It provides essential overload and short-circuit protection, featuring a high breaking capacity of 10kA for reliable fault current interruption. Engineered for ease of use, the device includes a clear contact position indication window and supports standard DIN rail installation.

## Technical Specifications

### Rated Breaking Capacity

**10 kA**

Breaking Capacity

**6 kA**

Conditional Rated Strength (Inc)

### Pole Configuration

- 1-pole
- 2-pole
- 3-pole
- 4-pole

Rated Current

63 A

Tripping Characteristics

Curve B, Curve C, Curve D

## Standards & Compliance

### Certifications

CCC • CE • VDE

### Applicable Standards

- IEC/EN 60898-1
- IEC/EN 60947-2

## Features

### Status Indication

Status	Color
ON	Green
OFF	Red
