

Miniature Circuit Breaker - 6000A Breaking Capacity

This Miniature Circuit Breaker is designed for 240/415V~ 50/60Hz electrical systems. With a breaking capacity of 6000A, it complies with IEC/EN60898 standards.

Product Overview

Reliable Circuit Protection

The KNB2-63 series Miniature Circuit Breaker offers a robust and reliable solution for electrical protection in residential and commercial applications. Designed for easy installation on standard DIN rails, it provides effective defense against overloads and short-circuits. With a high breaking capacity and broad compatibility with AC 50/60Hz systems, this device ensures safety and consistent performance for your electrical infrastructure.

Technical Specifications

Key Performance Metrics

6000 A Breaking Capacity	63 A Rated Current	50 Hz Frequency
------------------------------------	------------------------------	---------------------------

Electrical Ratings

Parameter	Value
Rated Voltage	240V / 415V
Frequency	50/60Hz
Max Rated Current	63A
Mounting	Standard DIN Rail

Compliance & Standards

Certifications

CE • CB • S • NF • SE • CM

Standards Compliance

- IEC/EN 60898
- GB10963

Usage & Application

Primary Functions

Overload Protection, Short-circuit Protection, Infrequent On-and-off Operation, Changeover
