

Miniature Circuit Breaker 63A 400V

This miniature circuit breaker is rated at 63A and designed for 400V AC electrical systems. It provides overload and short-circuit protection in residential, commercial, and industrial applications and is compliant with GB10963 and IEC60898 standards.

Product Overview

Reliable Circuit Protection

This three-pole miniature circuit breaker (MCB) is engineered for robust overload and short-circuit protection in electrical systems. Designed for a 400V AC environment, it ensures safety and reliability in residential, commercial, and industrial settings. Compliant with international standards, it offers consistent performance for demanding electrical infrastructure.

Technical Specifications

Breaking Capacity

4500 A

Breaking Capacity

Rated Current	63 A
Rated Voltage	400 V
Number of Poles	3

Compliance & Standards

Standards	GB10963, IEC60898
-----------	-------------------

Applications

Suitable Environments

- Residential
- Commercial
- Industrial
