

Miniature Circuit Breaker DPN 230V 32A

This miniature circuit breaker provides overload and short circuit protection. It is designed for residential buildings with AC 50 Hz / 60 Hz, a rated working voltage of 230 V and rated current up to 32 A.

Product Overview

High-Performance Miniature Circuit Breaker

This miniature circuit breaker offers reliable double protection against both overload and short-circuit conditions. Engineered for modern electrical distribution systems, it ensures safety in residential and commercial environments operating at 230V. With a compact 18mm-wide DPN (P+N) design, it is optimized for 35mm DIN rail installation in standard distribution boards.

Electrical Specifications

DPN configuration ensures reliable circuit protection.

Breaking Capacity

4.5 kA

Short-Circuit Breaking Capacity

Rated Voltage

230 V

Available Rated Currents

6A, 10A, 16A, 20A, 25A, 32A

Mechanical & Installation

Compact design optimized for DIN rail installation.

Pole Number	1P+N (DPN)
Mounting	35mm DIN Rail
Width per Pole	18 mm

Standards & Compliance

Tripping Curve Type C	
Compliance Standards	IEC60898-1, GB10963

Logistics & Supply

Supply Ability	5000 pieces per week
Packaging	Cartons
