

Miniature Circuit Breaker DPN 40A

This miniature circuit breaker (MCB) is designed for electrical protection in various applications. The DPN MCB provides overload and short-circuit protection for circuits up to 40A.

Product Overview

Professional Electrical Protection

The Miniature Circuit Breaker (MCB) DPN offers comprehensive protection for both residential and commercial electrical systems. Designed for reliability, it provides essential overload and short-circuit protection to ensure circuit integrity. Its DPN design handles both phase and neutral connections, meeting international safety standards for a wide range of infrastructure applications.

Technical Specifications

Rated Current	40 A
Breaking Capacity	6000 A
Rated Voltage	230V~
Rated Frequency	50 Hz

Performance Features

Key Protection Functions

- Overload protection
- Short circuit protection
- Circuit controlling

Instantaneous Release Types	Type B (3-5I _n), Type C (5-10I _n)
-----------------------------	---

Installation & Standards

Certifications

IEC/EN 60898-1 • CE • EAC

Mounting	DIN rail
