

Miniature Circuit Breaker DZ47-63

The DZ47-63 miniature circuit breaker is designed for overload and short-circuit protection in electrical systems. Rated at 400V, it conforms to IEC 60898 standards.

Product Overview

Miniature Circuit Breaker DZ47-63

The DZ47-63 miniature circuit breaker is a reliable solution designed for robust overload and short-circuit protection in electrical systems. Engineered for efficiency and safety, it is ideally suited for residential and light commercial applications, particularly with inductive loads. Its compact design ensures easy installation, while clearly marked operating positions provide enhanced operational clarity and safety for maintenance personnel.

Technical Specifications

Rated Voltage	400 V
Tripping Characteristic	C10
Compliance Standards	IEC 60898, CE

Design & Features

Key Features

- Overload protection
- Short-circuit protection
- Compact design
- Clear O-OFF position indicators

Model Series	DZ47-63
