

# Miniature Circuit Breaker DZ47N-60, 2P, 230V

The DZ47N-60 is a miniature circuit breaker (MCB) designed for residential and commercial electrical protection. It provides overcurrent and short-circuit protection with a 6000A breaking capacity and complies with IEC60898 and GB10963 standards.

## Product Overview

### Professional Electrical Protection

The DZ47N-60 is a reliable miniature circuit breaker (MCB) engineered for robust overcurrent and short-circuit protection in residential and commercial electrical systems. Featuring a C10 tripping characteristic, it is specifically designed to handle moderate inrush currents effectively. This double-pole device ensures safety and compliance, meeting international IEC60898 and GB10963 standards for peace of mind in electrical installations.

## Technical Specifications

Tripping Characteristic  
C10

Rated Voltage	230 V
Frequency	50/60Hz
Breaking Capacity	6000 A
Pole Configuration	2P (Double Pole)

## Compliance & Standards

Standards Compliance	IEC60898, GB10963
