

# Miniature Circuit Breaker for Overcurrent Protection

Miniature circuit breaker designed for overcurrent and short-circuit protection in electrical circuits. It features a trip mechanism, a toggle for manual operation, and terminals for secure wiring.

## Product Overview

### Reliable Circuit Protection

This miniature circuit breaker is engineered for robust overcurrent and short-circuit protection in both industrial and residential electrical circuits. It features a reliable trip mechanism and a manual toggle for safe operation, ensuring consistent performance. Designed to meet international standards, it offers secure wiring terminals for easy installation and long-term durability.

## Technical Specifications

Rated Voltage	400 V
Rated Current	32 A
Model Number	MW-102

## Compliance & Standards

Standards Compliance	IEC60947-2, EN60898
