

Miniature Circuit Breaker for Overload and Short-Circuit Protection

This miniature circuit breaker is designed for residential and commercial applications. Rated at 220V-50Hz with a 10000A breaking capacity, it provides overcurrent and short-circuit protection.

Product Overview

Reliable Circuit Protection

The RDX6-63 miniature circuit breaker is engineered for robust overload and short-circuit protection in electrical distribution systems. Suitable for AC 50/60Hz circuits, it supports single-phase 230V and multi-phase 400V configurations. This versatile device is ideal for domestic, commercial, and industrial applications, ensuring safety and compliance with international IEC/EN60898 standards.

Technical Specifications

Rated Current

63 A

Max Rated Current

Voltage Ratings

- 230V (Single Phase)
- 400V (2, 3, 4 Phases)

Breaking Capacity: 10000 A

Tripping Characteristic: C63

Compliance & Standards

Certified Standards: IEC/EN60898, GB 10963.1, IEC60898-1

Installation & Features

Indicators

ON/OFF Indicator

Primary Applications

- Domestic installations
- Commercial electrical distribution
- Industrial electrical distribution

Mounting

DIN rail mounting
