

Miniature Circuit Breaker (MCB) 10-63A, 1-4 Pole

Miniature circuit breakers (MCB) provide overload and short-circuit protection. They are available in 1P, 2P, 3P, and 4P configurations with current ratings from 10A to 63A.

Product Overview

Reliable Circuit Protection

This Miniature Circuit Breaker (MCB) is designed to provide robust overload and short-circuit protection for residential, commercial, and industrial electrical systems. Engineered with a durable PA66 flame-resistant shell and an efficient line strip design for heat dissipation, it ensures stable performance and safety. With an instantaneous tripping time of less than 0.1 seconds, this device offers rapid response to electrical faults, maintaining the integrity of your connected equipment.

Technical Specifications

Rated Current Range

- 10
- 16
- 20
- 25
- 32
- 40
- 63

Breaking Capacity

6000 A

Breaking Capacity

Available Poles

1P, 2P, 3P, 4P

Rated Voltage

230/400V AC

Construction & Design

Housing Material	PA66 (Flame resistant)
Heat Dissipation	Yes
Tripping Time	< 0.1s
