

Miniature Circuit Breaker MCB 6000A 400V

This miniature circuit breaker (MCB) is designed for 400V~ 50Hz electrical systems. It features a breaking capacity of 6000A and complies with GB 10963.1 standards.

Overview

Reliable Circuit Protection

This miniature circuit breaker is engineered for robust overload and short-circuit protection in low-voltage electrical systems. Designed for versatility, it supports both single-phase and multi-phase configurations, making it suitable for residential, commercial, and industrial distribution environments. It adheres to international safety standards, ensuring dependable performance for critical electrical infrastructure.

Technical Specifications

Rated Voltage

230 V

Single Phase

400 V

Multi-Phase

Breaking Capacity	6000 A
Rated Current	63 A
Operating Frequency	50/60 Hz
Compliance Standards	IEC/EN60898-1, GB 10963.1

Installation & Usage

Target Applications

- Domestic installation
- Commercial electrical distribution
- Industrial electrical systems

Operation

Toggle Switch • ON/OFF Indicator

Max Terminal Torque	2.5 Nm
