

Miniature DC Carbon-Brush Motor

This miniature DC motor features carbon brushes and is designed for low-voltage operation. It is suitable for a variety of applications requiring compact size and efficient power conversion.

Product Overview

Miniature DC Carbon-Brush Motor

The WRK-130W is a compact miniature DC motor engineered with carbon-brush technology for reliable performance. Designed for low-voltage applications, it offers efficient power conversion in a small form factor. This motor is suitable for various small-scale electronic and mechanical projects requiring precise, consistent operation.

Technical Specifications

Model Number	WRK-130W-20110
Rated Voltage	4.5 V
Motor Type	Carbon-brush DC motor
Identification Codes	AA 7X 08, JARK-130W-20110
