

# Miniature LED Cluster Bulb

This miniature LED bulb features a cluster of five individual LEDs for enhanced brightness. Its compact size ensures easy installation and provides energy-efficient, long-lasting illumination.

## Product Overview

### Miniature LED Cluster Bulb

This miniature LED bulb features a cluster of five individual LEDs, engineered for enhanced brightness and superior light distribution. Encased in a durable blue housing with a clear protective lens, it is designed for versatile applications including automotive lighting, indicator lights, and decorative purposes. Its compact form factor ensures easy installation in tight spaces while offering significantly improved energy efficiency and longevity over traditional incandescent alternatives.

## Technical Specifications

LED Count	5 LEDs
Housing Color	Blue
Lens Type	Clear

## Applications & Usage

Primary Applications	Automotive Lighting, Indicator Lights, Decorative Lighting
----------------------	--

## Features

### Key Benefits

- Enhanced brightness via 5-LED cluster
- Durable housing construction
- Compact size for tight spaces
- Energy-efficient operation
- Long-lasting illumination
