

Miniature Speaker Component with Perforated Grill

This miniature speaker component is designed for small electronic devices. It features a metallic construction with a central dome and perforated grill.

Product Overview

High-Performance Miniature Audio Component

This miniature speaker component is expertly engineered for integration into compact electronic devices. Featuring a robust metallic construction with a protective perforated grill, it ensures both structural integrity and clear audio output. It serves as an ideal solution for manufacturers requiring reliable, space-saving acoustic modules for portable or small-form-factor hardware.

Technical Features

Key Design Elements

- Compact form factor
- Metallic housing
- Central dome driver
- Protective perforated grill

Applications

Small Electronics, Portable Devices, Audio Output Systems
